EDUCATION

University of New South Wales, Sydney, Australia

Feb 2024 – Dec 2026

- Bachelor of Commerce (Finance and Business Analytics) | Recent WAM: 73.5
- Relevant Course Work: Quant Business Analytics, Programming for Data Analytics, Portfolio Management, Wealth Management.

PROFESSIONAL EXPERIENCE

TOTO Ltd., FP&A Intern

Nov 2025 – Feb 2026

- Delivered the data foundation for monthly management reporting, extracting and validating large volumes of cost centre data from SAP ERP across 2 cost centres.
- Prepared sections of the monthly reporting pack tracking operating expenditure against targets, supporting management review of cost performance.
- Supported the finance team through the budgeting and forecasting cycle and end-of-financial-year reporting.
- Reviewed cost centre structures and standard costing data, identifying opportunities to improve resource allocation and operational efficiency.

Bank for Investment and Development of Vietnam (BIDV), Credit Analyst Intern

Jul 2024 – Sep 2024

- Reviewed financial profiles, collateral documentation and loan applications for 20+ business clients with exposures of AUD 300k–420k, spanning pharmaceuticals, retail and other commercial sectors.
- Distilled complex client financials into concise written credit summaries, giving senior analysts a decision-ready basis for approval and risk grading.
- Partnered with senior analysts to evaluate asset performance and flag emerging credit risks.
- Contributed to asset valuation reports across real estate and collateral-backed instruments, ensuring accuracy of underlying security assessments.

K+ Broadcasting Station, Customer Service Agent

Sep 2023 – Jan 2024

- Resolved 300+ customer enquiries per weekend through the Premier League season, the station's peak broadcast period, primarily diagnosing technical faults.
- Translated technical issues into plain guidance for non-technical subscribers, working to resolve cases on first contact.

PROJECTS

Wealth Management Case Study, Australian household retirement strategy

Self-directed, published

- Built an eight-sheet, 8,332-formula Excel model projecting 30 years of superannuation, mortgage and non-super assets under FY2026-27 tax brackets, the indexed concessional cap, Division 293 and preservation age rules.
- Stress-tested four allocation strategies across 200 Monte Carlo paths, establishing that none met the 70% income replacement target and that a 0.70 percentage point fee reduction was worth \$200,907, more than any change in allocation.
- Distilled the modelling into a scaled statement of advice satisfying the client's pre-preservation-age liquidity constraint, published with the model online.

Top 5 @ BISA x UNSW WIT x Capgemini — Credit Pipeline Automation, retail bank loan origination prototype

Apr 2025

- Built the credit risk model behind the team's end-to-end loan origination pipeline: a logit-link GLM in statsmodels estimating probability of default, with the approval threshold tuned on F1 rather than defaulting to 0.5.
- Produced IFRS 9 Expected Credit Loss outputs ($ECL = PD \times EAD \times LGD$) for provisioning and audit, scaling loss given default to loan-to-value and building a five-band PD migration matrix to track borrower movement between risk grades.
- Owned the financial case, modelling weekly processing cost down from \$168,750 to \$56,500, a saving of \$112,250 a week, and stating the 70% automation assumption the figure depends on.
- Designed and built the full front end in HTML, CSS and JavaScript, a mobile-first application form with document upload feeding OCR extraction into the model.
- Recommended the bank treat credit decisions as a graded, explainable pipeline rather than a manual approval queue.

CERTIFICATIONS

Forge job simulations: Goldman Sachs Internal Audit (Aug 2026); Standard Chartered Credit Analyst (Sep 2026); BCG Strategy Consulting.

SKILLS

Technical: Excel, SAP ERP, SQL, R, Python, Tableau, Java

Finance: Financial Modelling, Credit Risk Modelling, IFRS 9, Budgeting and Forecasting, DCF Valuation

Languages: English (IELTS 8.0, Full Professional Proficiency), Vietnamese (Native)
